ORPHIC NEWS!

...at last, alas, it's here at last! Our Orphic book is here at last...

Our book is **OUT!**

Orphic Fodder: *the Autobiography of an Artistic Collaboration*

is a 191 page, full color tome with text in French and English which covers projects from La Baguette Enorme en Gala to Orphic Memory Sausages and everything in between.

15 years after we started making Orphic Feasts, we have collected images and stories and sandwiched them between two covers. Many of you make cameos on these pages.

We are very **happy** and very **proud** to invite you to order it [here](#) as

Festins Orphiques:
*Expérimentations culinaires ou
l'autobiographie d'une collaboration artistique*

We shall be having a REAL Book Party soon and will let you know where and when just as soon as we do.

love from,
Doug & Mimi

[About The Project](#)

just beyond Hope is a new experimental documentary work by Pia Massie about the experiences of Japanese-Canadians and Japanese-Americans during WW2. The story is from the past – a time that most have trouble speaking about, if they know it at all. It is a story that no two people see the same way; a story that no one agrees upon.
